

SPECS Advanced Material Sdn.Bhd.

Co. registration no. 1124356-A

Your Plastic Solutions Partner

S.A.M.

“Your Plastic Solutions Partner”

Key Products

Established in 2003 as a dedicated supplier and manufacturing of Engineering Plastics, Specs Advanced Material Sdn. Bhd. Malaysia (or known as SAM) is recognised as a leading supplier in the South-East Asia Market, with a focus in Engineering Plastics and Composite Materials.

SAM has developed a reputation for service, quality and the ability to provide our valued customers a “one-stop” engineering plastics and composite solutions.

With the support of our international manufacturers and in-house production in Malaysia, SAM brings to the South East-Asia market high quality rods, sheets, tubes and other specialty state-of-the-art plastic & composite materials.

Together with our partners, SAM also offers an extensive machining facility, utilising state-of-the-art CNC machinery and CAD/CAM technology providing our customers with high quality machined components and fabricated parts.

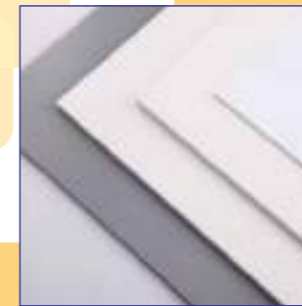

As a specialist in plastics, we are able to customize production as well as fabricated plastics sheet to any specification.

We can produce sheets of varying thicknesses for industrial use.

Headquartered in Kuala Lumpur, our major manufacturing plant and warehouse is located in Penang and Klang.

We also support a network of distributors strategically located to service those needs of regional areas throughout South East Asia. With many years of experience in the plastics and engineering field, our able and dedicated staff members are qualified to solve your plastics problems, answer your questions and satisfy your plastics needs.

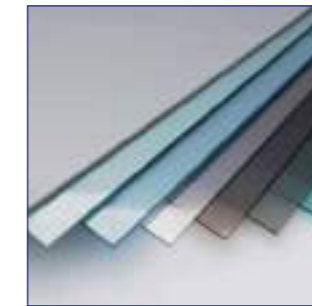

Contact SAM today to find out how we can help your organisation.
